Case 22-10964- MG MARCO ROMANO

August 9, 2022
Honorable Judge Martin Glenn
United States Bankruptcy Court for the Southern District of New York
Case No: 22-10964

Dear Honorable Judge Martin Glenn,

I am a 26 year old who invested in the Celsius Network LLC platform, et al. and I really believed my funds were safe.
First of all, I apologize if I contact you privately.
You are a person of great prestige and I do not want to disturb.
You are a great professor and a great judge!
I realize that I am just one among many, but I want to have the courage to tell what happened.

The platform has $ 7000 owned by me and I hope you understand.
About a year ago, I transferred around $ 7000 USD (most of my savings) in the form of:
0.082224 BTC Bitcoin (in the "Earn" account)
0.818848 ETH Ethereum (in the "Earn" account)

This is money that I honestly earned by making a lot of sacrifices.
The crisis has brought me to my knees!
I can't believe I was foolish enough to believe CEO Alex Mashinsky's words promising the Celsius Network LLC platform would replace the banks!
He set up a great disinformation campaign, everyone believed in the solidity of the project.

The bear market has revealed the cards, has revealed the reality.
It was all a gamble, they played with our money!

Please help me, like me all of us who are suffering so much, help us get back our funds!
Don't abandon us too, do them justice!
Please do it for our children, for our loved ones.

I apologize again for the inconvenience, a warm greeting,
MARCO ROMANO
